Work trestle kit

Specification

Product type Kit	Material Aluminium	Surface texture Anodised aluminium	Anodising Bright E6/EV1	Profile dimension X 40 mm
Profile dimension Y 40 mm	Dimension A 1.2 m	Dimension B 460 mm	Dimension C 830 mm	Dimension D 40 mm
Order no. 930700				

Facts

- Work trestle made from sturdy anodised aluminium profiles, 40 x 40 mm
- Support made of non-slip rubber profile
- High degree of stability due to sturdy screw connections
- Height-adjustable cross bracing
- Adjustable circular feet
- Side-rail ends with plastic cover caps
- Plastic cover for open profile slots

Description

Sturdy work trestle for secure workpiece support with maximum flexibility! The MUNK Profiltechnik work trestle kit made from anodised 40×40 mm aluminium profiles offers 200 kg load capacity – the ideal work surface for craft projects, featuring a non-slip rubber profile, height-adjustable cross brace, and profile slots for custom add-ons.

High-Quality Aluminium Construction for Long-Term Use

- Profile slot allows stops or components to be attached
- Maximum load: 200 kg
- 40×40 mm anodised profiles: Robust, bright anodised aluminium for wear resistance and a professional appearance
- 200 kg load capacity: Maximum strength for demanding workshop applications
- 40 mm wide support surface: Stable and secure workpiece support with optimal contact area

Detail-Focused Safety and Stability

Non-slip rubber surface: Ensures additional safety during use and prevents workpieces from slipping.

Height-adjustable cross brace: Offers excellent stability with secure screw connections and allows adaptation to specific work requirements.

Adjustable base feet: Easy height adjustment for different floors and compensation of uneven surfaces.

Modular Expandability via T-slot System

Profile slots for accessories: Allow secure attachment of stops or custom components for individual workstation setups. **Plastic covers:** Included caps seal unused slots to protect against dirt and maintain a clean look. **Professional finishing:** End caps on horizontal rails for added safety and visual appeal.

Self-Assembly Kit

The work trestle is supplied as a complete self-assembly kit – with all necessary components and connectors for easy setup.

Typical Applications

- Crafts & joinery: Sawing, planing and processing of wooden workpieces
- DIY projects: Solid work surface for various home improvement tasks
- Workshops: Professional support for repair and assembly work
- Construction & renovation: Mobile work aid for changing job sites

- Industry: Assembly and machining stations with custom accessories via T-slots

Discover the MUNK work trestle kit – the stable support platform that assembles today and reliably holds your workpieces tomorrow.

Scope of supply

- Work trestle kit for self-assembly: 1 x

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: ISO 14001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users
