Angled walkway system

Specification

Business division MUNK Günzburger Steigtechnik	Sector Industrial systems	Type stationary	Height fixed
--	-------------------------------------	---------------------------	------------------------

Facts

- Platform length to the kink: approx. 17,000 mm, 4-part
- Platform length from kink to vertical descent: approx. 8,394 mm, 2-part
- Platform width: 650 mm
- Platform height top edge: 2,040 mm
- Clear height: 1,800 mm
- Overall width: approx. 750 mm
- Decking: grooved aluminium
- Railing: all-round rigid
- 3 safety doors on the steps
- 3 vertical steps (1 at the end, 2 on the long sides)
- Surface load: 1.5 kN/m²

Description

Client's Request and Task

The customer, a renowned beverage manufacturer, needed a solution to optimize the walkways within its facility. The focus was on shortening the walking distance, safely and ergonomically connecting to an existing crossover, and improving occupational safety by avoiding passages beneath the conveyor belts.

Customer Requirements

- Shortening of the walking distance within the facility
- Connection to an existing crossover
- Safe and ergonomic access
- Stable, reliable, and standard-compliant execution

- Total load: 500 kg

Our Solution

Catwalk System Concept

The solution consists of an angled catwalk system, manufactured in a modular design. The system is designed to seamlessly integrate into the customer's existing infrastructure and meet the specific requirements of the facility.

Modular Construction and Technical Details

The platforms and support frames of the catwalk system are made from high-quality materials, ensuring durability and stability. The railing is equipped with a height of 1100 mm and both foot and knee ledges to provide maximum safety. The system includes a total platform length of approximately 25 m, a width of 650 mm, and a height of 2 m.

Safety and Ergonomics

The catwalk system includes three vertical descents, providing safe and ergonomic access. The support tubes of the platforms are adjustable to ensure optimal adaptation and stability. The overall load capacity of the system is 500 kg with a surface load of 1.5 kN/m².

Conclusion

The innovative angled catwalk system offers the customer a customized solution that not only increases efficiency within the facility but also improves safety and ergonomics for the employees. It is an ideal combination of functionality, safety, and adaptability, thereby exceeding the customer's expectations in all areas.

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH

- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users

Added value

Trust us as your competent partner for tailored access equipment solutions. From analysis and design to construction and premium after-sales service, we are the industry leader.

★ Analysis

We set the benchmark when it comes to evaluating access equipment requirements. Our experts take the time to fully understand your specific needs. Following a thorough analysis, we present a customised solution precisely tailored to your individual circumstances. Rely on us to identify your challenges and provide innovative solutions.

★ Design

We lead the way in planning bespoke solutions. With creativity, technical expertise, and a deep understanding of access equipment, we develop groundbreaking concepts. Our experienced team designs outstanding solutions that meet the highest safety standards while maximising efficiency and ergonomics for you. Let our expertise and innovative strength impress you.

★ Construction

In construction, we set the bar high. Our engineers and production planners possess unique expertise and extensive experience in access equipment. Using state-of-the-art technologies and high-quality materials, we realise your design down to the smallest detail. Precision and quality are our top priorities, ensuring bespoke solutions that meet the highest demands.

★ Production

At our modern production facilities in Günzburg, we professionally and efficiently bring your plans and requests to life. Our specialists in access equipment, electronics, and mechanics focus on one thing: quality that delivers on its promises. Every construction, big or small, is crafted with the utmost care and precision and rigorously tested before shipping.

From decades of experience, we know that individual requirements require special solutions. That's why we are here to help you realize your custom construction.

Get inspired by our reference products and make your unique idea a success. We look forward to supporting your project with our expertise and dedication. Contact our competent team for more information and assistance.

With MUNK Group by your side, your custom construction becomes a reality: Safety. Made in Germany.

What we offer

- On-site consultation and project planning
- Custom development according to your requirements
- Precision manufacturing
- Functional and cost-effective access solutions
- Maximum workplace safety
- Fast delivery
- Compliance with all relevant German, English, and international standards and regulations, such as BetrSichV, DGUV regulations, Machinery Directive 2006/42/EC

★ **After Sales**

Our commitment doesn't end with the completion of your bespoke solution. We excel in after-sales service. Through assembly, maintenance, inspections, and repairs, we ensure your customised access equipment remains in perfect condition. Our reliable team offers top-tier customer service, ensuring your satisfaction is always our priority.
