8

Specification

Material Kunststoff	Weight per metre 22 g/m	Groove size 6 mm	Dimension A 6 m	Business division MUNK Profiltechnik
Order no. 930612				

Facts

- For inserting glass, acrylic glass, wood or sheet metal elements into the profile slot
- Available in different lengths. Specify the length you require when you place your order
- Possible thickness of push-fit elements: 1.0–2.5 mm

Description

Invisible press-fit connection for a professional look! The MUNK Profiltechnik black clamping profile made of flexible plastic securely holds glass, acrylic, wood or sheet metal elements inside 6 mm T-slots – without visible screws or adhesives for clean, professional solutions.

Tool-Free Installation with Invisible Fastening

- Clamping connection: Holds elements from 1.0–2.5 mm in thickness with a friction-fit – no visible fasteners
- Easy installation: Simply press into the 6 mm profile slot, insert the panel – done

- Secure connection: Durable hold with fully reversible installation for maintenance and replacements

Optimised for 6 mm Slots

Specifically for 30 mm profiles: Perfectly fits all MUNK 30×30 mm construction profiles with 6 mm T-slots. Compact design: Just 22 g/m for minimal added weight.

Wide Material Compatibility

- Glass elements: Secure integration of safety glass and viewing panels
- Acrylic glass: Clear partitions and protective screens
- Wood elements: Decorative cladding and functional panels
- Sheet metal: Metallic covers and protective plates

Flexible Length Configuration

Available in lengths up to 6 m – custom lengths can be specified when ordering for accurate, waste-free installation.

Typical Applications

- Workstations: Invisible mounting of privacy panels and partitions
- Machine enclosures: Clean integration of viewing windows without visible fasteners
- Testing equipment: Professional glazing on measuring and testing setups
- Automation technology: Clear sight zones in robot cells and handling units
- Small device housings: Sleek front panels and control elements

Discover the MUNK Klemm-Profil schwarz – the invisible fastening for a professional appearance, simply pressed in today and delivering seamless surface integration for the long term.

Scope of supply

- Clamping profile, cut to the required length (max. 6 m): 1 x

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: ISO 14001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users
